

## **Cross Country Schooling Day Guidelines**

The following guidelines are to be observed by all. A designated safety monitor will be roaming the cross country course during schooling hours. If you have any questions or concerns look for the Safety Coordinator Golf Cart marked with an Orange Flag.

- Please try to limit groups to a total of 6
- When possible walk from jump to jump so you don't startle horses waiting for a turn to practice.
- Please do not attempt to jump a fence until the rider(s) ahead of you have finished
- Schooling is only allowed over flagged questions/jumps
- Ask nearby coaches or riders if a fence is clear before attempting to jump
- Please try to keep your group moving along. If you need more time at a jump complex, take a break and let other riders pass through or move to another complex and come back later
- Be polite and observant of other riders, horses, officials, volunteers, CHP Staff, and ground people
- If you see concerning behavior please report it to the CHP office or the "Safety Coordinator" in the golf cart with an orange flag.
- Please keep the health and safety of yourself and your horse a first priority. Stay hydrated and keep your horse as cool a possible with lots of breaks
